

# Hanan Fayyaz

Passionate About Tech & Growth

## About Me

Strategic and detail-oriented Full-Stack Developer with a solid technical foundation in I.C.S. and a mastery of the modern web stack (MERN/PERN). Expert at transforming complex business requirements into scalable, high-performance applications using React, Node.js, and Tailwind CSS. Backed by a strong legacy of data integrity and logic, I specialize in building responsive front-end interfaces and robust back-end architectures. Committed to writing clean, maintainable code and leveraging Git/GitHub for efficient, collaborative development in fast-paced tech environments.

## Skills

- Strong Learning Ability
- Data Management
- Debugging Mindset
- Google Sheets, MS Excel

## Language

- English
- Urdu

## Experience

### ● Full-Stack Developer (2023 – Present)

- Frontend Architecture: Engineered responsive and dynamic user interfaces using React.js and Tailwind CSS, ensuring mobile-first design and optimal cross-browser compatibility.
- Backend Development: Architected scalable RESTful APIs using Node.js and Express, implementing secure authentication and efficient data routing.
- Version Control & Collaboration: Managed codebase integrity and CI/CD workflows using Git and GitHub, collaborating through branching, pull requests, and code reviews.

### ● WEB DEVELOPER / DATA SPECIALIST (2023 – 2025)

- Content Management: Successfully managed and entered backend data for multiple freelance website projects.
- Reporting: Utilized MS Excel and PowerPoint to create detailed project progress reports and client presentations.
- Problem Solving: Applied a "debugging mindset" to identify and fix data inconsistencies and technical errors.
